

Our October Visit to Prospect Point, Blue Mtn. NY, - October 2019

This was our return visit to [Prospect Point Cottages](#) on Blue Mountain Lake, NY, this October. The weather forecasts looked very challenging, so we decided to do the trek sans our kayaks. A first back to Blue.

The weather was as advertised which did give us a wonderful opportunity to spend more time on land exploring the area. The days began with our 2-3.8 mile morning walk around the village and beyond followed by the awesum Prospect Point brunch buffet

full of hot and cold treasures. The daily highlights included the Adirondack Museum, the Wild Center in Tupper Lake, the Newcomb trails, and other walking/hiking areas. A bit of quiet reading and hammock time also ensued.

What a beautiful time of year to roam outside each day and see a different scene unfold. Next year is inked in!
